WORK EXPERIENCE

Si2 Technologies Pvt Ltd.

Role: SAP ABAP Developer

Vadodara

April 2025 – Present

- Worked closely with functional consultants from the beginning of projects (requirement gathering, feasibility check, and solution design & technical documentation).
- Worked on SAP modules like MM, SD, FICO, and PP for technical ABAP development.
- Developed multiple WRICEF objects including reports, interfaces, enhancements, conversions, and Smart Forms.
- Built and worked on APIs (REST and OData) for system integration.
- Handled real-time integration between SAP and third-party systems.
- Improved performance of programs using AMDP/CDS Views.
- Worked on enhancements like User Exits and BAdIs.
- Spearheaded a POC on Automating Sales Order creation using SAP iRPA (Build Process Automation in SAP BTP).
- Explored SAP Joule capabilities to generate boilerplate code and accelerating initial development and improving productivity.

Bosch Global Software Technologies

Role: Associate Software Developer Intern/Trainee
Wirepas Stack, Radio Application Development, Python

Bangalore
